What does the club do?

As a Developers Student Club, we seek to empower the student population in their coding journey through mentorships, projects and organisation of workshops.

Why should you join the club?

Our club focuses on the following 3 development phases:

Industry experience

Problems and solutions

Community and industry

Who should join the club?

Anyone who is curious or passionate about coding are welcome to join our family! No experience is required because we will be the one to provide you with that! :P

Point of contact
