The Institution of Engineers Singapore

What is the IES?

IES is the **premier** engineering Institution in Singapore and serves as a professional body for the technical and career development of Engineers. It consists of EAB, the accredition board that certifies recognition of Engineering degrees as valid in Singapore.

Who are we?

We are the student chapter of IES, and we conduct various workshops and industrial events to expose students like you to engineering in the real world.

Why should you join us?

Join us to:

- Get access to **fun workshops** and **events**
- Find out more about your dream companies through **industry visits** and **networking events**
- Become a **Chartered Engineer** and get ahead of your peers

Visit to Singapore Airlines Digital Innovation Lab

IES has conducted the following events in the past:

- Industrial Visit to Singapore Airlines
- Industrial Visit to Hope Technik
- Industrial Visit to EMA
- Electric Piano Workshop
- Excel Macro and VBA Workshop

Visit to Hope Technik

Who should join us?

1. talented students with strong will to develop complete and professional skill sets
2. students who want to have a closer connection with businesses and real-life challenges
3. students who want to study further on topics including data visualisation, deep learning and so on.
4. students who want to build a rapport with others and manage to develop their own projects

Electric Piano Workshop
